

Children & Care Proceedings

Divorce & Separation

Domestic Violence

Computer & Email Investigations

Investigation and analysis of electronically generated and stored information on computers, and other digital devices such as email, pictures, web history etc. to establish the 'Who, what when & where' in your family case

Mobile Phone Investigations

Forensic examination of live and deleted data on the SIM or Chip on mobile phones, smartphones, iPads and other mobile devices. We recover text messages, emails and other content and investigate call logs, message data and browsing history.

Web & Social Media Investigations

We capture and analyse information from messages and information posted to Instagram, Facebook, Twitter, LinkedIn etc. as well as web based emails.

Registered Expert Witness

Our investigators have vast experience of attending court and providing expert witness testimony, as well as explaining technical findings in a simplified, understandable yet fully comprehensible manner.

Typical Cases

Children & Child Care - Examination of mobile phones/emails/social media regarding enforcement of court orders that may have been breached

Divorce & Separation - Examination of computers/emails to discover hidden cash and/or other hidden assets

Domestic Violence/Harassment – Extract evidence from mobile phones /E-mails / social media
